

Birmingham Maple Clinic /  
Proudly Presents

**Jerome Price**, MA, LMSW, LMFT /

Founder / Michigan Family Institute

Author of / *Power and Compassion: Working with Difficult Adolescents*

International Speaker, Supervisor & Clinician

## / “The Right To Be The Grown-Up: Learning Skills To Effectively Parent Your Difficult Teen

“...an essential model for helping parents to help themselves as parents. Parents will learn a host of practical, easy-to-implement strategies to reclaim their lives when their children's behavior is out of control.”

**The Parent Handbook follows the sequence of the course** and offers a slew of helpful homework assignments, definitions, and mottos designed to reinforce the information presented and to bolster parent confidence even at the toughest of times.

Developed by the Michigan Family Institute, this skills program has already met with great success through workshops and trainings based on it. Price teaches parents how to take action to improve their lives as parents and the lives of their adolescent and pre-adolescent children.

“My husband and I have greatly benefited from (this) programme. Our youngest son... has been involved with (your) group... I am also a dean at a secondary school and the programme has helped my work with teenagers (at my school). I just wanted to thank you personally – for keeping us sane...”
